

Sports Premium funding 2016-2017

PE School Sport Funding allocation is £9525.00 for the academic year 2016-17.

The government is determined to secure a significant and lasting legacy from the very successful 2012 Olympic and Paralympic Games that were held in London. In order to achieve this and improve the provision of PE and sport in primary schools, additional funding of £150 million per annum has been made available for the academic years 2015/6 and 2016/7.

At St. Anne (Stanley) Primary and Nursery school we believe that sport plays a crucial role contributing to the health and well-being of our children. We also believe that sporting excellence and participation go hand in hand with academic standards.

We continue to use the sport funding to purchase membership of the several leagues in the city and in neighbouring authorities, which alongside our own school actions has enabled us to strengthen and improve our provision in the following ways.

- We have appointed a specialist P.E. Teacher to teach P.E. across the school from Nursery to Year 6. This enables her to plan and deliver a scheme of sports and clubs that progressively develop our children. The P.E. teacher also provides CPD for staff in order to continue to raise standards and promote whole school development within sporting opportunities across the school.
- We have increased opportunities to support and engage the least active children through a wide range of planned additional sports and health clubs throughout this academic year.
- We are committed to increasing the opportunities to attend sports competitions and participation in school games. This academic year we have planned to use a specialist centre in order to promote competitive sporting events and celebrations.
- We plan to invest in further equipment and team kits to support new initiatives – ‘Run a Mile’ in addition to established competitions such as Football.

A wide range of activities are delivered in school which aims to engage and inspire all children. We are committed to ensure that all children receive high quality well-planned lessons and opportunities.

Throughout the year each child will participate in games, athletics, dance and gymnastic lessons. Opportunities are also planned for swimming in Years 2,3,4,5 and 6. Our aim is that all children leave our school at the end of Year 6 able to swim 25 metres.

The Wider Curriculum

P.E. and sport has a high profile in our school and permeates many aspects of school life.

Since 2015 we have held sports days for both Infant and Junior departments. We are really pleased with the large number of parents who come along to support the events.

During our residential visits and visits to specialist centres our children are given opportunity to engage in different activities such as climbing and assault courses.

We continue to engage with many outside agencies to deliver a wide range of specialisms - including tennis coaching and visits to watch and enjoy the tennis finals in Liverpool. We also work closely with our local feeder schools who support the provision for P.E. in our school – especially Dance (this culminates in a regular yearly performance with network schools).

Item/Project	Costing	Desired outcomes	Impact
Subsidise cost of specialist P.E. teacher to lead P.E. and provide C.P.D. throughout the school.	£3,000.00	Teaching staff and Lunchtime Support staff confident in delivery of P.E. lessons or lunchtime activities.
