

Computing – Parent Workshop

Dear Parents/Carers,

As you may be aware, one of our educational partners; MGL, has been working with our school over the last two school years to develop and enrich our Computing curriculum. The MGL consultants not only work with the children but also give the teachers a chance to learn how to maximise the school's resources, thus giving the children the best possible opportunity to get the very best out of the Computing curriculum.

We are now giving you as parents and carers the opportunity to engage in some of the fantastic experiences that your children are accessing. We are going to be running workshops on Wednesday mornings after half term, running all the way up to Christmas. To launch this fantastic opportunity, we are doing a showcase event on **Wednesday 10th October 2018**, highlighting the exciting and developing activities that you will get the chance to engage in. Below is a brief description of what is on the agenda:

- Trying new technology
- The secrets of gaming
- The Internet
- Accessible Computing
- Improving you and your child's basic skills

We will also offer the opportunity for any parents and carers to discuss any matters or issues they have in either an open forum or in person with a consultant after the presentation.

Tea and coffee will be provided along with a complimentary bacon butty or croissant!

In order for us to prepare the right amount of seating space and refreshments we would like to know how many parents and carers are attending, so could you please fill out the attached form and return to us as soon as possible.

As always we are very grateful for your support.

Kind Regards

Mrs Simons
Head Teacher

Computing - Parent Workshop

I would like to attend the Computing showcase event on Wednesday 10th October 2018.

Name of Parent/Carer attending the event:

Name of Child/Children attending the school:
