

St Anne Stanley CE Primary School

Many hearts make a school

Curriculum Intent Statement

Vision

To provide our children and families with a safe, welcoming and inclusive environment, where they feel valued for who they are. With God's guidance we strive for our children to become well-prepared and confident members of our school, wider community and church parish. We all come together to learn as a Christian community.

Values

We are proud to belong to belong to a Christian community where care and concern for each other is shown, within the school and beyond. Our school values of Honesty, Friendship, Family, Confidence, Hope and Understanding underpin all aspects of school life

Knowledge and understanding of faith and culture is nurtured throughout our curriculum and school life. Every child is a unique individual. Through our faith in God's guidance we celebrate personal and cultural diversity to enable our children to become resilient local and global citizens of the future.

Equality

Every person in our school community has been made in the image of God and is loved unconditionally by God. Everyone is equal and we treat each other with dignity and respect. Our school is a place where everyone can flourish in a loving and hospitable community. Every person in all their unique difference can thrive.

We are committed to promoting the understanding of the principles and practices of equality – treating all members of our school community as individuals, according to their needs, with an awareness of our diverse society and appreciating the value of difference. We actively seek to challenge discrimination and we promote an anti-bullying stance.

Curriculum Intent

The curriculum at St Anne Stanley CE Primary is designed to reflect this caring and inclusive nature and meet the needs of all learners. We aim to provide a high quality curriculum which supports every child to achieve their fullest potential.

We want our children to become confident, creative and critical thinkers who are not afraid of making mistakes, can build resilience through the development of their problem solving, reasoning and interpersonal skills. It is through this curriculum that our children will have the time of their lives now – and shape their lives for the future!

Curriculum Implementation

Providing a curriculum that is unique to our school is paramount to our vision. In order to achieve this, leaders at all levels continually review and improve its contents. We have designed a high quality curriculum that embraces individual needs and physical and mental well-being in a safe, enriched learning environment. This carefully planned and sequential curriculum is taught through a diverse range of subjects. High quality teaching actively promotes and continually develops children's wider vocabulary across all subjects and caters inclusively for all learners. Reading is a strength of our school and we aim to develop a love of reading in all of our children.

We embrace the opportunities that our local area provides, in terms of geographical and historical content and have incorporated this within our curriculum design to develop cultural capital. Equally, the strong links with our local church and community enable a wide range of exciting and dynamic learning opportunities that not only offer different contexts and experiences, but also encourage both local and global citizenship. Although the foundation subjects are taught discretely, we have carefully developed cross-curricular links to enhance the curriculum. We recognise the importance of providing a wide range of experiences for our learners and have ensured that curriculum enrichment opportunities are regularly planned throughout the year.

We have embraced the ROAR programme as a tool to support personal well-being. This is complimented by our carefully planned PHSE scheme and wide range of support links that are in place to support our children in keeping safe. We encourage our children to become increasingly active and health conscious through our planned programme of Healthy Cooking and our Physical Education curriculum which actively encourages participation in a wide range of competitions across the city and numerous opportunities for extra-curricular sports.

Curriculum Impact

Children leave our school with a sense of belonging and responsibility, having had the time of their lives and fully equipped to become our successful, caring local and global citizens of the future.
