

Tone

The Four Rules of Shading are:

- shading in one direction
- creating smooth, neat, even tones
- leaving no gaps and
- ensuring straight edges

We can shade from light to dark.

Drawing

We can draw from observation, recognising shapes in an object and describing texture and colour

Shape

We can identify the basic geometrical shapes when drawing objects and use these to help us to draw more accurately.

Craft

We can use different materials to create a puppet figure, making the various parts of the puppet to the correct proportions.

Inspiration

Paintings by Amanda Jackson

Puppets by Paul Klee

Shadow Puppets by Lotte Reiniger
