

Design

Lenticular prints of Luz Perez Ojeda

Optical Illusions can be created by cutting up a photograph and folding paper in a way that distorts the picture.

Willow Pattern

Willow Tree pattern plates are created in one colour (blue), although different tones and hues of blue are used.

Painting

'Mont Sainte - Victoire' (1904) by Paul Cézanne
Cézanne has been called a father of modern art. Later artists have been influenced by his use of geometry and perspective.

Craft

Soap Sculptures
Barbara Heoworth's soap sculptures are displayed in the Tate Gallery.

Tools can be used to carve **patterns** and create **texture** within the soap.

Drawing

'Still Life' (1950) by Giorgio Morandi
We can use tone to create different effects in our drawings.

A curator

A curator's job is to set up and manage collections of works of arts within museums and gallery spaces. To be a 'real' curator, you would need to have an expert knowledge of the items in your exhibition.

Vocabulary

- optical illusion
- distort
- hue
- casting
- carve
- geometry
- perspective
