

Reception Class Newsletter

Dear Parents / Guardians,

Friday 14th May 2021

Thank your for returning your Parent's Evening reply slip. Please remember children are not to attend this appointment with you

This week in maths we have been focusing on teen numbers. We used a tens frame to support learning number patterns to 20 and counting on (putting 10 in our head and counting on in ones). We have used numeral cards and picture quantity cards to match number to quantity. We finished the week using the tens frame to support subtraction. We used subtraction to play bingo!

Miss Quinn was very impressed in P.E. this week. She put the benches out and the children had to travel along them in various ways, keeping their balance and travelling safely.

We have noticed that some items are coming into school e.g. watches, bracelets. toy figures etc. If children loose these or they are broken it would be upsetting for them. Can they remain at home to avoid this please, thank you.

Enjoy the weekend
