

Reception Class Newsletter

7th November 2025

Dear Parents and Guardians,

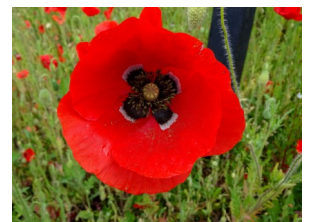

School was closed to children on Monday for a staff training day. This was delivered by the Liverpool Authority Maths Lead. One of the suggestions on the day was using songs as appropriate for each year group. Children are surrounded by music everyday and it is a good starting point for a maths lesson to engage the children whilst learning and embedding number at the same time.

On YouTube Jack Hartmann has lots of fun videos to engage children whilst exercising and learning. Try the QR codes below and have a listen

In “**My Happy Mind**” lessons we are now beginning the “Celebrate” section. The focus is on the character strength, Love and Kindness. The children think about how they use kind hands or words and how that had made someone feel, by being offered kindness. The children all agreed that when someone is kind to us it gives us a good feeling inside.

Poppies are on sale in readiness for
Remembrance Day on
11th November.

Dates to Remember
